

California Solar Initiative Program Forum

November 19, 2014

CSI Forum Agenda

- * Program Status Update
- * CSI Handbook Update
- * Policy Update

Program Status Updates

CSE (SDG&E), SCE, PG&E

CSE Territory (SDG&E)

SECTOR	PROGRAM STANDING	CURRENT STEP	REMAINING MW IN CURRENT STEP	PROGRAM MW GOAL	MW INSTALLED
Residential	CLOSED	10	0	85	83.7
Non- Residential	OPEN	10	4	96	77.1

- The SDG&E Residential program exhausted its funding on February 14, 2014, and closed its waitlist on April 11, 2014.
- The SDG&E Non-Residential program moved into Step 10 on October 22, 2014

SCE Territory

SECTOR	PROGRAM STANDING	CURRENT STEP	REMAINING MW IN CURRENT STEP	PROGRAM MW GOAL	MW INSTALLED
Residential	Closed	N/A	N/A	266 MW	319.6 MW
Non- Residential	Waitlist	10	.24	539 MW	334.4 MW

- SCE closed the Residential program in April 2014 and will not be issuing reservations for waitlisted projects.
- SCE began the waitlist for Non-Residential projects on October 1, 2014 and will issue reservations until all remaining incentive funds are exhausted.

PG&E Territory

SECTOR	PROGRAM STANDING	CURRENT STEP	REMAINING MW IN CURRENT STEP	PROGRAM MW GOAL	MW INSTALLED
Residential	Closed	NA	0	252	278.2
Non- Residential	Closed	NA	0	512	471.2

- The PG&E Residential program closed its waitlist on April 11, 2014, and will not be issuing reservations for waitlisted projects.
- The PG&E Non-Residential closed its waitlist on December 12, 2013, and will not be issuing reservations for waitlisted projects after December 31, 2014.

CSI Handbook Update

CSE

CSI and NEM-Aggregation (NEM-AG)

Examples of qualifying properties:

Diagram 1

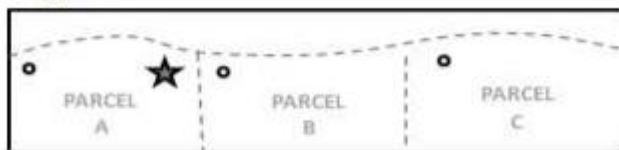

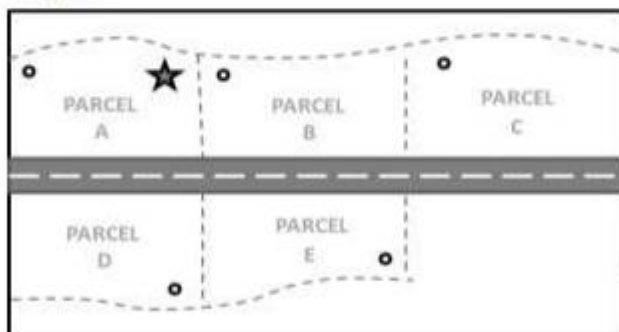

Diagram 2

- ★ = RENEWABLE ELECTRICAL GENERATION FACILITY
- = METER
- = ELIGIBLE

CSI projects are now eligible to receive a full CSI incentive for a system capacity based on the aggregated load of all eligible meters

Refer to CSI Handbook Section 2.1.5.1 for eligibility details

Regulatory Update

James Loewen, CPUC

NEM application and solar data Decision

On Nov. 6 CPUC issues D.14-11-001:

1. Orders new data fields for the NEM application (e.g. price)
2. NEM application data to join with CSI PowerClerk data to populate Working Data Set and California Solar Statistics
3. Mandates online NEM application process
